Insulated structures

Hallgruppen's insulated warehouse buildings have an airtight solution that controls the climate and provides many benefits to help promote energy efficiency.

The halls can be customized with various heat sources, loading solutions, doors and non-insulated sections.

BOTTOM: Hallgruppen has a range of solutions for offshore and marine environments, like these insulated PVC-halls over Statnett's emergency sea-cables in Norway.

Airplane hangar 35 x 40m
with 11 meter wall height

Sport structures

Whether its football or tennis Hallgruppen design sport halls based on current standards. We offer a wide variety of options and can customize the halls to one or many different sports.

Bulk storage for 50.000m³ of pellets

9 meter high bulk walls for upwards storage of 60.000m³ of material

This bulk-hall measures 40x120m

Bulk-storage warehouses

Bulk-halls have lofty ceilings and large floor surfaces with integrated wall supports and are often used for storage of cereals, salt, pellets, sand and other bulk goods.

BOTTOM: This hall dimensioned at 40x160m (!) has a concrete rim for storage of wood pellets.

Hall structures for storage and efficient handling of bulk materials.

Construction operations & projects

Hallgruppen designs and supplies a wide variety of hall types. Anything from small storage facilities to large main contractor projects. We acknowledge our responsibility to find good and efficient solutions.

As a main contractor to many of these projects Hallgruppen was responsible for everything from building permits, ground works, foundations, structural and all internal accessories such as electrical installations, heating, ventilation and all other details.

Construction and storage tents

Hallgruppen's construction & storage tents provides an effective protection against harsh weather. The tents can be used for anything that needs shelter from weather such as material storage, roof-over-roof systems for renovation projects or bridge construction and more.

Maintenance hall for bullet-trains.
The hall measures about 270m in length.

110 meters wide running on
a specially designed rails system.

Event

We have everything you need for small or large-scale events. Hallgruppens event structures can be used for exhibitions, festivals, conferences and fairs. We also provide furniture, floors, heat, lighting, walls and other equipment.

Hosting a spontaneous event?
Hallgruppens collection of collapsible furniture from Zown
can easily be arranged to fit all kinds of spaces.

In addition to halls we also deliver furniture, floors, toilets and other things that assures a great event.

Aid & relief

Hallgruppen supplies a wide range of tents for emergency operations and other purposes worldwide. There is a wide range of options such as insulated versions and other accessories to accommodate the demands for each project.
