

MIXIT

Environmental Product Declaration

Grundfos MIXIT, the all-in-one mixing loop solution, is labelled with an Environmental Product Declaration (EPD).

When designing HVAC systems for sustainable buildings, access to objective, verifiable data from an EPD is essential to achieving building certification such as BREEAM or LEED.

Grundfos is a global leader of energy-efficient water solutions for use in homes, buildings, industries, utilities and agriculture. As part of our commitment to sharing transparent, unbiased data on our products' environmental impact, we're proud to offer EPD declarations on MIXIT.

In accordance with ISO 14025 and the EN 15804 standard, the EPDs specify quantitative, objective and third-party verified information about the entire life cycle of MIXIT, from raw material extraction to end-of-life. Access EPDs for each MIXIT model below.
